Abbreviations:

SC = Single Crochet

HDC = Half Double Crochet

Ch = Chain

DC = Double Crochet

TRC = Triple Crochet (Treble Crochet)

SL ST = Slip Stitch

Sts = Stitches

SC INC (increase) = Crochet 2 stitches in one hole

SC DEC (decrease) = Crochet 2 stitches together

BLO = back loop only

FLO = front loop only

Notes:

- Note that the orientation of the all parts of the pattern are set such that it looks at the project from the front.
- Yarn listed is what I used - Size may vary with other yarns.
- Use stitch marker to indicate beginning of rounds.
- Worked in continuous rounds; do not join and do not turn unless specified.

Important! REVERSE SINGLE CROCHET (reverse SC)

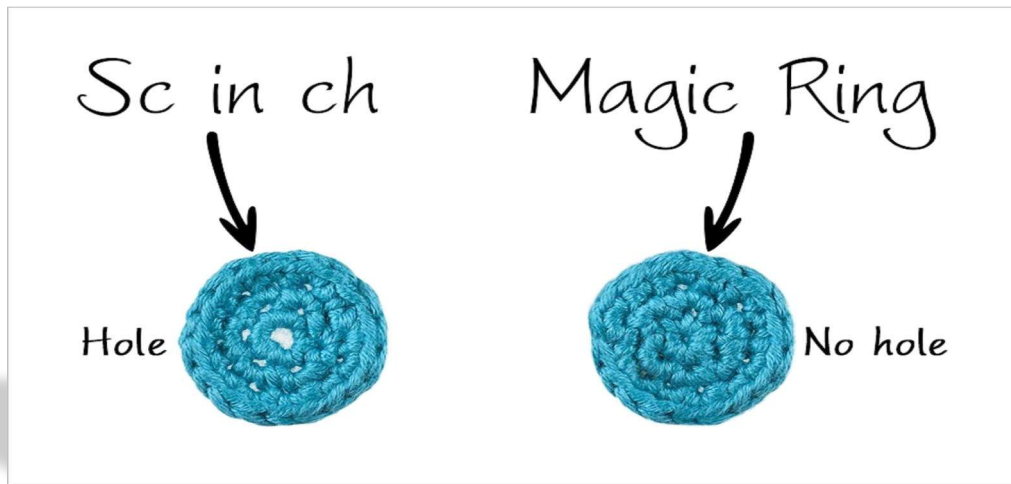

REVERSE SINGLE CROCHET is worked like regular single crochet expect going left to right instead of right to left.

Place hook in the stitch to the RIGHT of the hook, yarn over, draw yarn through the stitch, yarn over, and pull through both loops as you would with a regular single crochet. Keep working in the manner in each stitch to the RIGHT of the hook.

Generic processes

1. Magic amigurumi ring

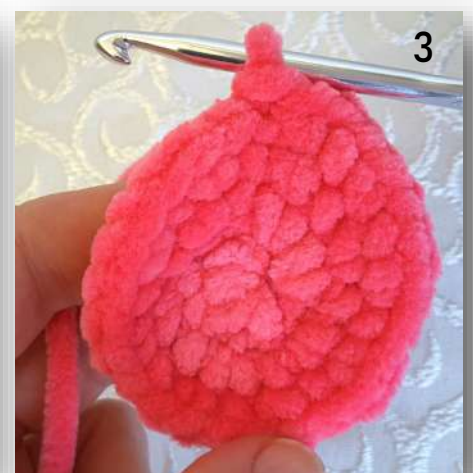

Basically, for any design that you may try to make that grows in a round pattern, you will have to use the Magic Ring crochet pattern. This technique allows you to start with a tightly closed center instead of a big hole in the middle.

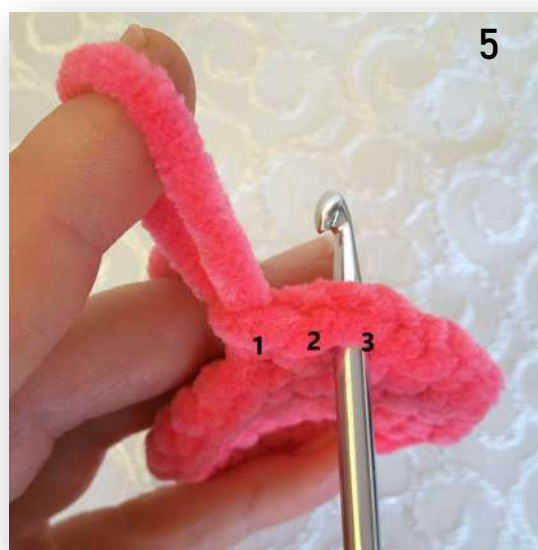

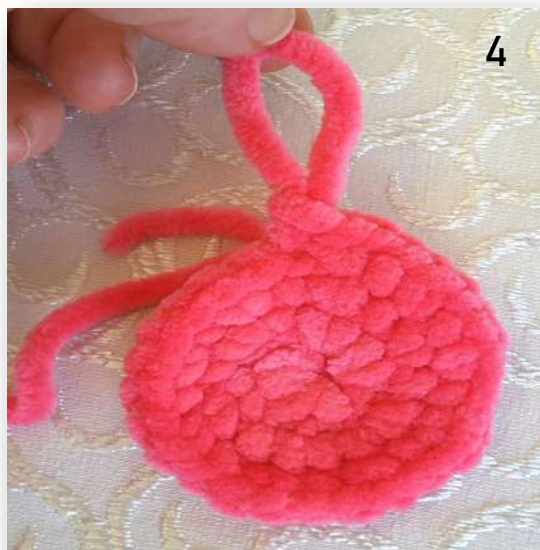

2. How to make an invisible color change in Single Crochet Stitch

To show this process clearer, I've used two bulky yarn of the contrast colors.

- You finished the round and you want to change the color of the yarn (Picture 1).
- Do 1 SL ST in the next SC (Pictures 2, 3).

- Pull the loop to make it bigger (**Picture 4**).
- Insert the hook into the third SC from the beginning (**Picture 5**).

- Take the yarn of the new color (**Picture 6**).
- Draw through the hole (**Picture 7**).
- Do 1 Ch (**Picture 8**).

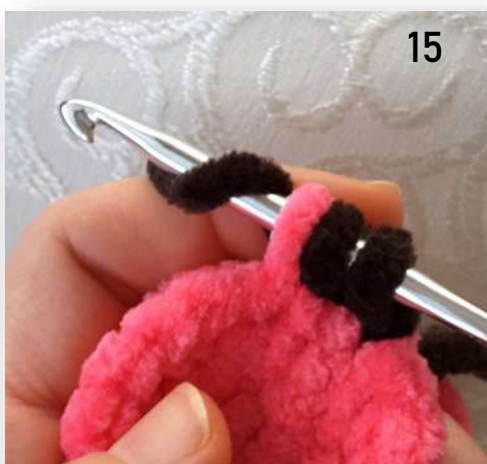

- Take the end of the yarn and pull it tightly to make the stitch smaller (**Picture 9**).
- Do 1 SC in the next SC. It is the first SC of the new round (**Pictures 10, 11**).

- Insert the hook under 2 threads of the next SC (Picture 12).
- Draw the yarn (Picture 13).
- Having 2 loops on the hook, insert the hook into the loop of the old color. Pulling the yarn's ends, make the same size of the loops (Picture 14).

- Draw the new yarn through the all three loops. It is the second SC of the new round (Pictures 15, 16).

- Now pull the thread of the old yarn, then the thread of the new yarn to make our stitches the same (Pictures 17, 18).

- Work 1 SC in the next SC. It is the third SC of the new round (Picture 19).

- Work one round with 1 SC in next SC (Picture 20).
- To crochet the last SC of the round, insert the hook under the Ch you did before in Picture 8 (Picture 21).
- So you've made an invisible color changing (Picture 22).
