

## CHAMELEON CONRAD MUSICAL TOY

When the lion sleeps tonight, another predator is lurking for prey. You can't see him, he's the master of camouflage and he moves so extraordinarily slowly, that it looks like he doesn't move at all. Until he catches you with all his cuteness.

## GENERAL ADVICE

1. For most parts you start with an **adjustable ring** („magic ring“ or „magic loop“) and you'll go on work in a **continuous spiral** (except the pattern calls for a slst to close the round). This means, you continue to crochet directly into the first stitch of the previous round to start the next round.
2. Stitch markers are your friends! **Mark the first stitch** of a round to keep track of where the round begins. This helps when counting your stitches to compare it with the pattern.
3. Take care to **crochet very tight** stitches! If you crochet rather loosely, choose a smaller hook size.
4. To get the right shape for your amigurumi, the most important thing is to **stuff it very well**. Stuff it as tight as you can – I mean, really tight! When you think that's enough, stuff it a bit more! A broken chopstick is the perfect tool to help you to spread the soft stuffing into every little corner.
5. If the amigurumi will be best friend to a **child under the age of 3**, please use safety eyes or embroider the eyes with dark gray or black yarn. Make sure every part is tightly sewn on to securely attach all pieces to the body.
6. Most important: **Have fun!**

## TUTORIALS

### A INVISIBLE SC-DECREASE

Insert the hook into the front loop of the 1st stitch and then directly also into the front loop of the 2nd stitch (3 loops on the hook → photo 01). Single crochet as usual: Yarn over, draw through both front loops on the hook (2 loops on the hook). Yarn over, draw yarn through both loops on the hook.

*Note:* This also works for taller stitches like *hdc*, *dc*, or *tr*. On flat pieces with both sides visible, you'd rather use the standard way to decrease.

### B CHANGING YARN TO A NEW COLOR

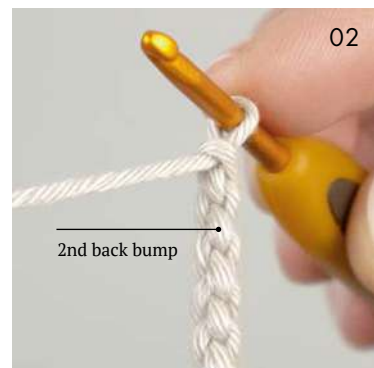

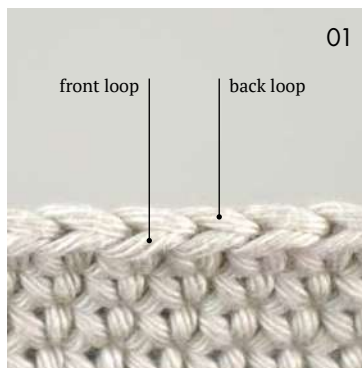

Change to another color by joining in the new color during the final step of the last stitch in the old color as follows: work the last stitch in the old color until the last two loops of the stitch are on the hook (→ photo 01). The next stitch you make will be the first stitch in the new color (→ photo 02).

### C FRONT LOOP, BACK LOOP, BACK BUMP

Sometimes you need to work into just one part of a stitch. This might be a front loop or the back loop (→ photo 01).

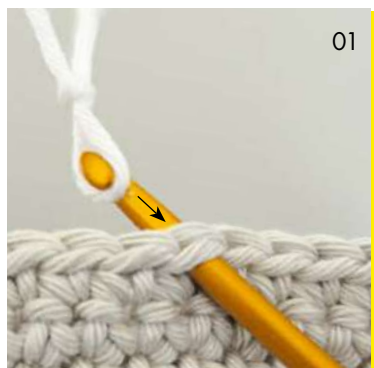

Some instructions also call for working into the back bumps on the backside of a foundation chain (→ photo 02).

### D JOIN YARN WITH A SLIP KNOT

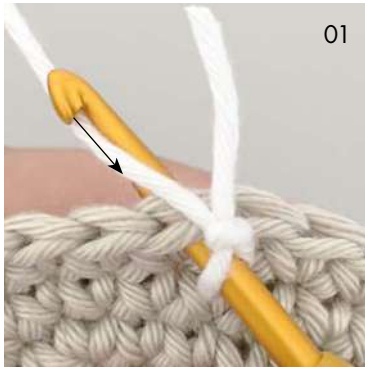

Make a slip knot from your yarn (do not place on hook). Insert hook into indicated stitch. Place the slip knot onto hook and pull the slip knot through the stitch (→ photo 01). Take care to keep the knot on the back of the fabric. Work into the next stitch, or make the number of chains as indicated in the pattern (e.g., to start a new round).

*Note:* You can also just insert the hook into indicated stitch, yo and pull it through the stitch if you prefer (without making a slip knot).

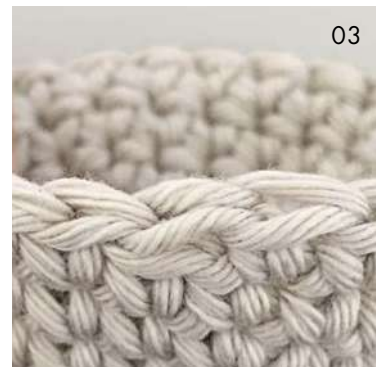

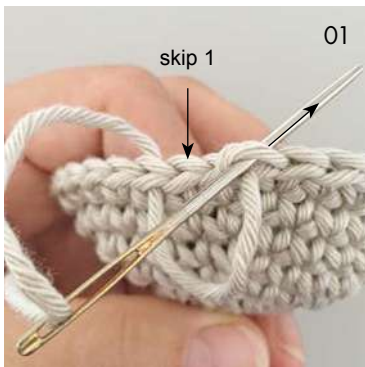

### E STANDING STITCH JOIN

With a slip knot onto hook insert the hook into indicated stitch. Yarn over, draw the yarn through the stitch (→ Photo 01). Yarn over, pull through both loops on the hook (→ Photo 02), finish a single crochet stitch as usual (→ Photo 03).

### F INVISIBLE FASTEN OFF

Skip one stitch. Insert needle into next stitch, pull yarn through. Insert needle into the back loop of the same stitch that the yarn tail is coming from (→ Photos 01+02). Pull gently. This creates a false stitch (**closing stitch**) that mimics the skipped stitch (→ Photo 03).

### G CLOSE REMAINING STITCHES THROUGH THE FRONT LOOPS

Pull the yarn tail through last stitch completely. With a yarn needle, draw the yarn through every remaining front loop - from outside to inside (→ Photo 01). Pull gently to close the gap (→ Photo 02+03).

## ABBREVIATIONS (US TERMS)

### X-SHAPE SINGLE CROCHET STITCH (YARN-UNDER-SC, CROSS-STITCH-SC)

Insert the hook into the indicated stitch. Don't do yarn over now, but yarn **under** (!): Grab the yarn from above with the hook pointing down, pull up a loop through the stitch. Then, finish like a common v-shape sc stitch: Yarn **over**, pull through both loops on hook.

## HEAD

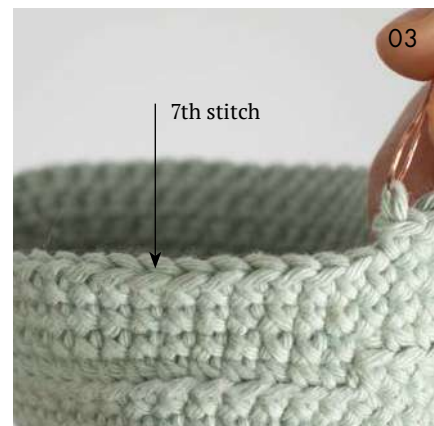

———— I highly recommend to **use the x-shape sc** for this pattern! It creates tight stitches which are standing much more on top of each other, compared to the v-shape sc. Also the shift of the beginning of the rnds will be less. If you use v-shape sc the beginning of the rnds will move much more to the right with every finished round, which will cause an unintentional twist of the body shape.

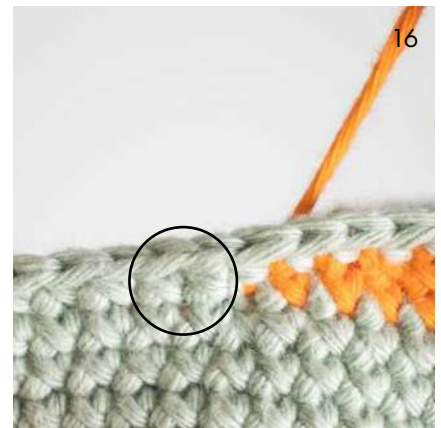

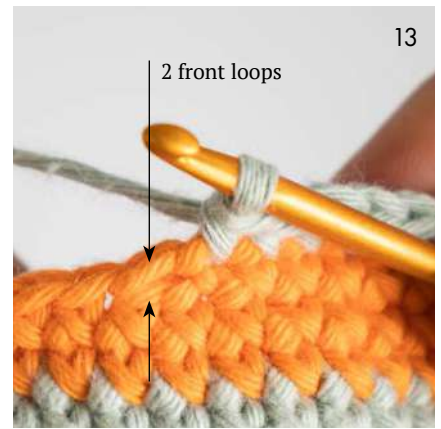

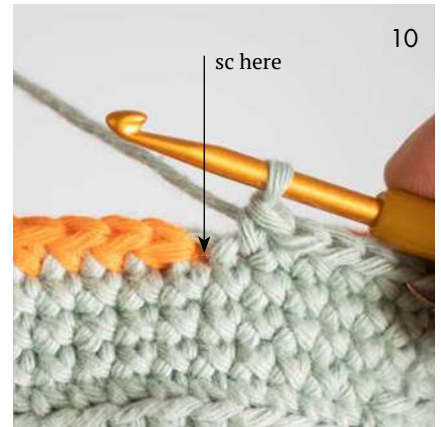

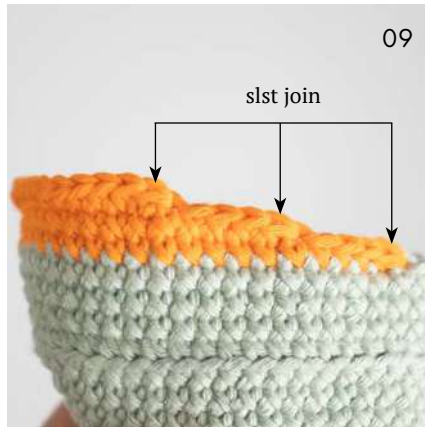

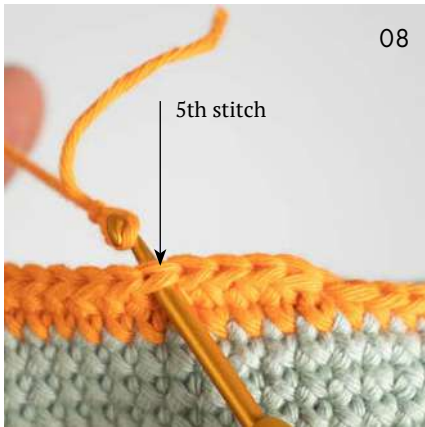

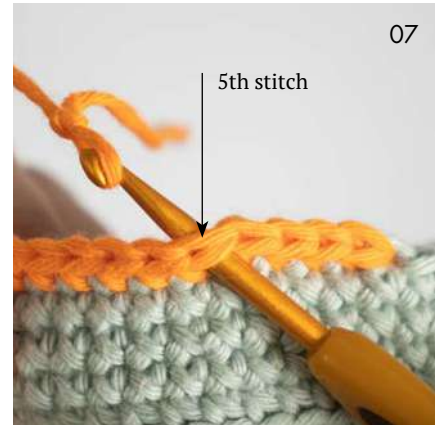

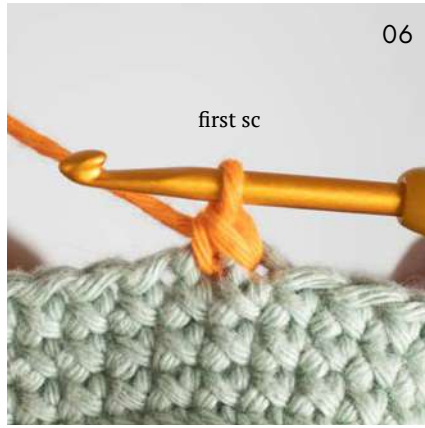

Using **color A (main color / sage)**, make a magic loop.

18. sc 51 (→ photos 01+02)

Take the **main color loop off the hook** and safe it on a stitch marker. Starting in the first stitch of the rnd count **7 stitches forward** (→ photo 03).

19. (short row) Join **color B (orange)** with a slip knot (→ Tutorial D) into the **7th** stitch (→ photos 04+05), sc 1 into the next stitch (→ photo 06), sc 35, slst 1, cut the yarn and close the row invisibly (→ Tutorial F).
20. (short row) Join **color B** with a slip knot into the **5th** stitch of the previous orange row (→ photo 07), sc 27, slst 1, cut the yarn close the row invisibly.

21. (short row) Join **color B** with a slip knot into the **5th** stitch of the previous orange row (→ photo 08), sc 18, slst 1, cut the yarn and close the row invisibly.

**Pick up the main color loop.**

You've reached the first closing stitch of a short row now. Insert the hook into **both front loops**, the one of the original stitch and the front loop of the sewn closing stitch above the original stitch (→ photos 13+14) and sc-flo 1 into the closing stitch.

**Work into both front loops only for every closing stitch of a short row here and throughout.**

sc 14. (51)

*TIP: The closing stitch of the first orange row (row 19) will leave a little orange dot. To make it vanish, pull the yarn tail remaining from the closing stitch to tighten the closing stitch once you've finished the round (→ photo 15+16).*

23.-24. (2 rnds) sc 51

Take the **main color loop off the hook** and safe it on a stitch marker. Starting in the first stitch of the rnd count **8 stitches forward**.

row, sc 4, sc 1 in same st like slip knot join of 3rd  
yellow row, sc 33 (51)

29.-30. (2 rnds) sc 51

Take the **main color loop off the hook** and safe it on a  
stitch marker.

Now, take a short break fit in the music box insert  
and stuff the body.

## MUSIC BOX INSERT

Put the music box into the head. Use the crochet hook to  
draw the pull cord of the music box through the center of  
the magic loop (→ photos 20+21). On the outside, fasten the  
cord with a safety pin, stitch marker, or knot to stop it from  
slipping back inside the head.

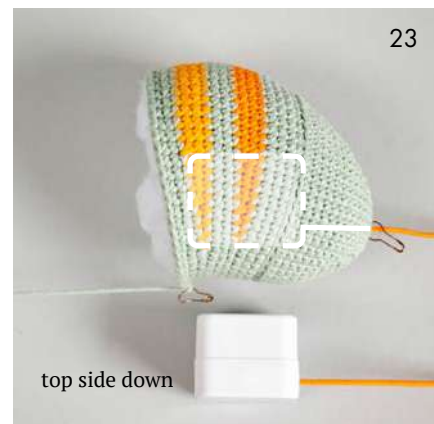

Next, stuff the space in front of the music box well (→ photo  
22)! Make sure the tip of the head is stuffed well enough to  
hold the music box back, when you pull the cord to make it  
play.

Inside the body, make sure to place the music box with its top  
side turned towards the bottom of the body (→ photo 23), so  
that the cord stands in a straight line from where it comes  
out of the music box to the center of the magic loop.

Now, stuff the space all around the music box very well. Make  
sure to stuff well enough, so that the music box can't move  
much inside the body and you won't feel its corners when  
you squeeze or snuggle the chameleon (→ photo 24).

From now on, continue to **stuff the body well as you go.**

Back to crochet!

Starting in the first stitch of the rnd, count **9 stitches forward**.

*TIP: You'll work slip stitches in rnd 47 and throughout.*

*Slip stitches are very tight stitches. You need to take care to crochet them **very loosely**, so that you can insert the hook easily in following rnds.*

Remove marker, sc 2.

73. sc 1 (pm = new beginning of following rnds), sc 2, dec, sc 1 (5)
- 74.-75. (2 rnds) sc 5 (→ photo 33)

Cut the yarn, leaving a **very long tail** and close the last rnd invisibly (→ Tutorial F).

Thread a yarn needle with the main color yarn tail. Starting at the tip of the tail, roll up the chameleon tail as shown in → photos 34+35.

Fasten the curled up tail with a sewing stitch every second, or third row. When the tail is all curled up, sew in the ends. (→ photo 36)

## HEAD SHIELD

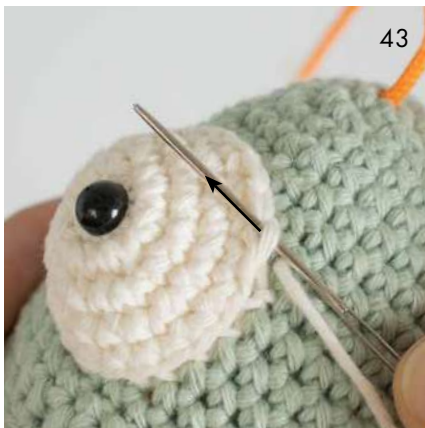

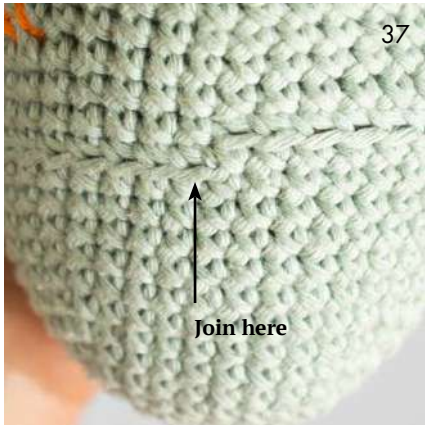

01. Holding the body head down, join **main color** with a standing sc (→ Tutorial E) into the first remaining front loop of rnd 15 (→ photo 37), sc 21, inc, sc 1, inc, sc 22, inc (51)
02. slst 1, sc 7, hdc 8, dc 6, [dc-inc] 3x, dc 6, hdc 8, sc 10, dec (53)
03. sc 25, inc, sc 27 (54)
04. slst 54

Cut the yarn and close the rnd invisibly (→ Tutorial F). (→ photos 38+39)

## EYES MAKE 2

Using **color G (white)**, make a magic loop.

01. sc 7 into a magic loop (7)
02. [inc] 7x (14)

03. [sc 1, inc] 7x (21)  
 04.-05. (2 rnds) sc 21

Slst 1 into the next stitch, cut the yarn with a very long rest and close the rnd invisibly (→ Tutorial F).

Attach a black safety **eye** in the center of the magic loop. Make another eye the same way.

Pin the eyes in position as shown in → photos 40+41, between the bottom of rnd 06 and the top of rnd 13.

Use the white yarn tail to sew the **back loops** of the stitches of the last round of the eye onto the body (→ photos 42-45). Before closing the last few stitches, put a little bit of soft stuffing into the eye – just enough to keep the shape.

Then, finish the last stitches and weave in the ends. A round of white front loops will remain at the margin of the eye.

With a long strap of **main color (sage) yarn** sew a border around each eye. Therefore, sew around each front loop **3 times** (→ photo 47) – repeat all the way around the eye. Take care to **sew rather loosely** and place the stitches **evenly next to another!**

## LEGS MAKE 4

### PIECE A

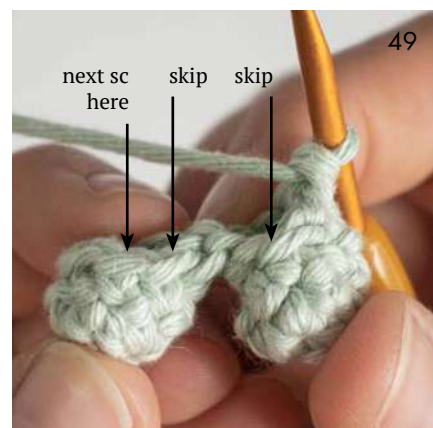

Using **main color (sage)**, make a magic loop.

01. sc 6 into a magic loop (6)  
 02.-03. (2 rnds) sc 6

Slst 1 into the next stitch, cut the yarn and close rnd invisibly (→ Tutorial F).

### PIECE B

Repeat instructions as given for piece A until the end of rnd 03. **Don't cut the yarn** this time, but hold piece A next to the hook.

04. On piece A, sc 1 into the next stitch after the closing stitch (→ photo 48 / pm = 1st stitch), sc 4, skip the closing stitch on piece A and one stitch on piece B (→ photo 49), then sc 5 along piece B. (10)

05. sc 10

06. sc 1, sc3tog, sc 6 (8)

07. sc3tog, sc 5 (6)

Close the open end flat with a row of sc stitches:

Fold, so that 2 stitches line each other in 2 layers (→ photo 50). Go through both layers at once: sc 2.

Cut the yarn with a long rest to sew the leg onto the body. Make another 3 legs the same way.

Pin the legs into place (refer to → photo 52 for the right position). Use the yarn tails to sew the legs onto the body (→ photos 52). Then, weave in all ends.

## FLY

Using **color H (petrol)**, make a magic loop.

01. sc 6 into a magic loop (6)
02. [inc] 6x (12)
03. sc 12

————— Take a break to attach the fly to the pull string of the music box.

**Pay attention that the pull string of the music box is completely wound up and the music stopped to play!**

Draw the end of the pull string through the center of the magic ring and place the fly next to the tip of the snout of the chameleon – with a distance of 2-3 cm (approx. 1 inch) between the fly and the tip of the snout (→ photo 53).

Knot the end of the pull string near to the surface inside the body of the fly (→ photo 53).

Make sure the knot is big and fastened enough, so that it can't slip back through the center of the magic loop when you pull the fly later to make the music box play!

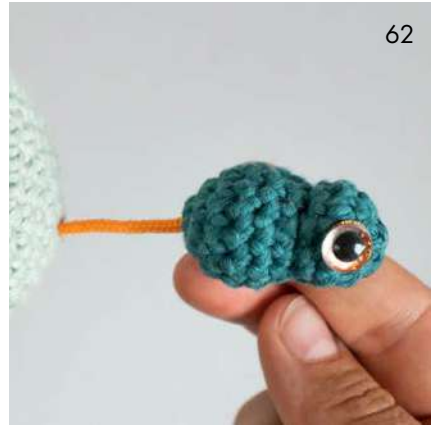

————— Back to crochet!

- 04.-05. (2 rnds) sc 12 (12)
06. [sc 1, dec] 4x, stuff the body (→ photo 54) (8)
07. [inc-flo, sc-flo 1] 4x (12)
08. sc 12
09. [dec] 6x (6)

Attach **the colored safety eyes** (Ø10mm) between rnds 08 and 09 (→ photo 55). This could be a little bit challenging, because the opening is very small.

Also the shanks of the eyes could be a bit too long to fit into the head, so that you might need to cut off the end once

the washer is placed on the shank. The best way to shorten the shank is to melt the plastic shank with a lighter and press it flat (→ photos 57-59).

*TIPP: Alternatively you can use yarn in a color of your choice to embroider the eyes.*

Now, stuff the head, cut the yarn, close the last rnd through the front loops (→ Tutorial G) and weave in the end. (→ photos 60-62)

## WINGS MAKE 2

Using **color G (white)** make a foundation chain of 4 ch. Start in the second ch from hook and crochet along the chain: slst 1, sc 1, sc 4 into the last stitch.

Next, along the other side of the chain:  
sc 1, slst 1, slst 1 into the first stitch of the rnd, ch 1.  
Cut the yarn with a long rest (→ photo 63).

Then, make another wing the same way.

Using the yarn tails, sew the wings onto the body – on the neck of the fly between rnds 06 and 07 (→ photo 64+65).
